

GEO 542: Introduction to Remote Sensing – Fall 2025

Here are the instructions for students to request CATALYST Professional licenses:

1. Download CATALYST Professional to your personal computer: [catalyst-professional-windows.zip](#)
2. Install CATALYST Professional by following "Step 2 - Software Installation" of the Standalone Dongle-less installation tutorial: <https://catalyst.earth/tutorial/standalone-dongle-less-installation-catalyst-professional/>
3. Get your machine fingerprint information. This can be found in the License Registration (Start | All Programs | CATALYST Professional | License Utility).
 - It will begin with 14*-...
4. Fill out the form on the student license portal, making sure to include your machine fingerprint: <https://catalyst.earth/student-license-portal/>
 - Password: geomatica
